

**JOB ANNOUNCEMENT:
POST-DOCTORAL RESEARCHER AT THE EARTH OBSERVING AND DATA
PROCESSING LAB OF OLD DOMINION UNIVERSITY**

Subject: a immediate open position of post-doctoral researcher
From: "Guoqing Zhou" <gzhou@odu.edu>
Date: Fri, 7 Mar 2003 09:35:58 -0500

Dear Colleagues

Please bring your graduate students to the following attention. thanks, Guoqing

An Immediate Open Position for a Post Doctoral Researcher

A Post Doctoral Researcher position is open at the Earth Observing and Data Processing Lab of Old Dominion University. The successful candidate will work on the Project funded by the NASA via George Mason University. This position will be filled immediately upon identification of a suitable candidate.

Applicants should have a recent Ph.D. degree in Geography, Environmental Engineering, Remote sensing, Image Processing, Geographic information system or a related field. Knowledge in remote sensing, image processing, environmental engineering, and GIS is desirable. The successful candidate will conduct research on Landsat 7 image processing, land use classification, NVDI, and coordinate activities with other research teams and government agencies. The successful candidate must be very familiar with software of EARDAS/IMAGINE, ENVI, and ERSI software series. Strong communication skills are required. The salary is commensurate with experience. The original appointment is for one year. Extension is possible depending on availability of funding and performance.

Applications will be accepted by April 15, 2002, or until the position is filled. Please send an application letter, resume, and two letters of reference to:

Dr. Guoqing Zhou
Kaufman Hall, Rm. 214
